

# Fermented Mixed Compost (FMC)

**Cho Global Natural Farming (CGNF)**

# 1. Time for Making FMC

---

- ② It is better to start making the fermented mixed compost (FMC) in the fall rather than in the summer.
- ② Low-temperature fermentation is good for fertilizing.

## 2. Place for making FMC

---

- Little wind and good drainage.
- Water availability is important.
- The floor must be soil.

# 3. Materials

FMC is hardly made from only one kind of material.

**(1) Include at least one item from each category**

- the mountain (fallen leaf or fruit)
- the paddy (rice bran or straw)
- the field (oil dreg, bean dreg or bush clover)
- the sea (fish waste or seaweed)

# 3. Materials

**(2) Include as many kinds as possible, but the major ingredients are animal materials with abundant proteins (bone meal or fish meal) and plant materials.**

## 3. Materials

---

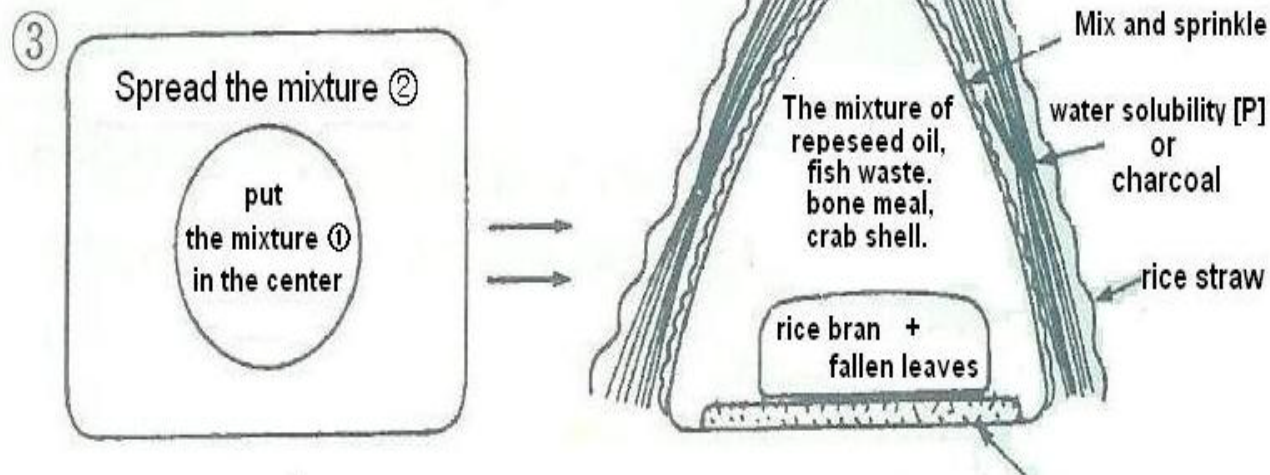

**(3) As a rule, do not use agricultural by-products.**

**(4) Food for microbes is food for humans, animals and plants as well.**

# 4. How to make FMC

# 4. How to make FMC

At the bottom, cover rapessed oil residue that did not spray the water.

Covered with newspapers, straw mats.

# THANK YOU
