

Natural Farming

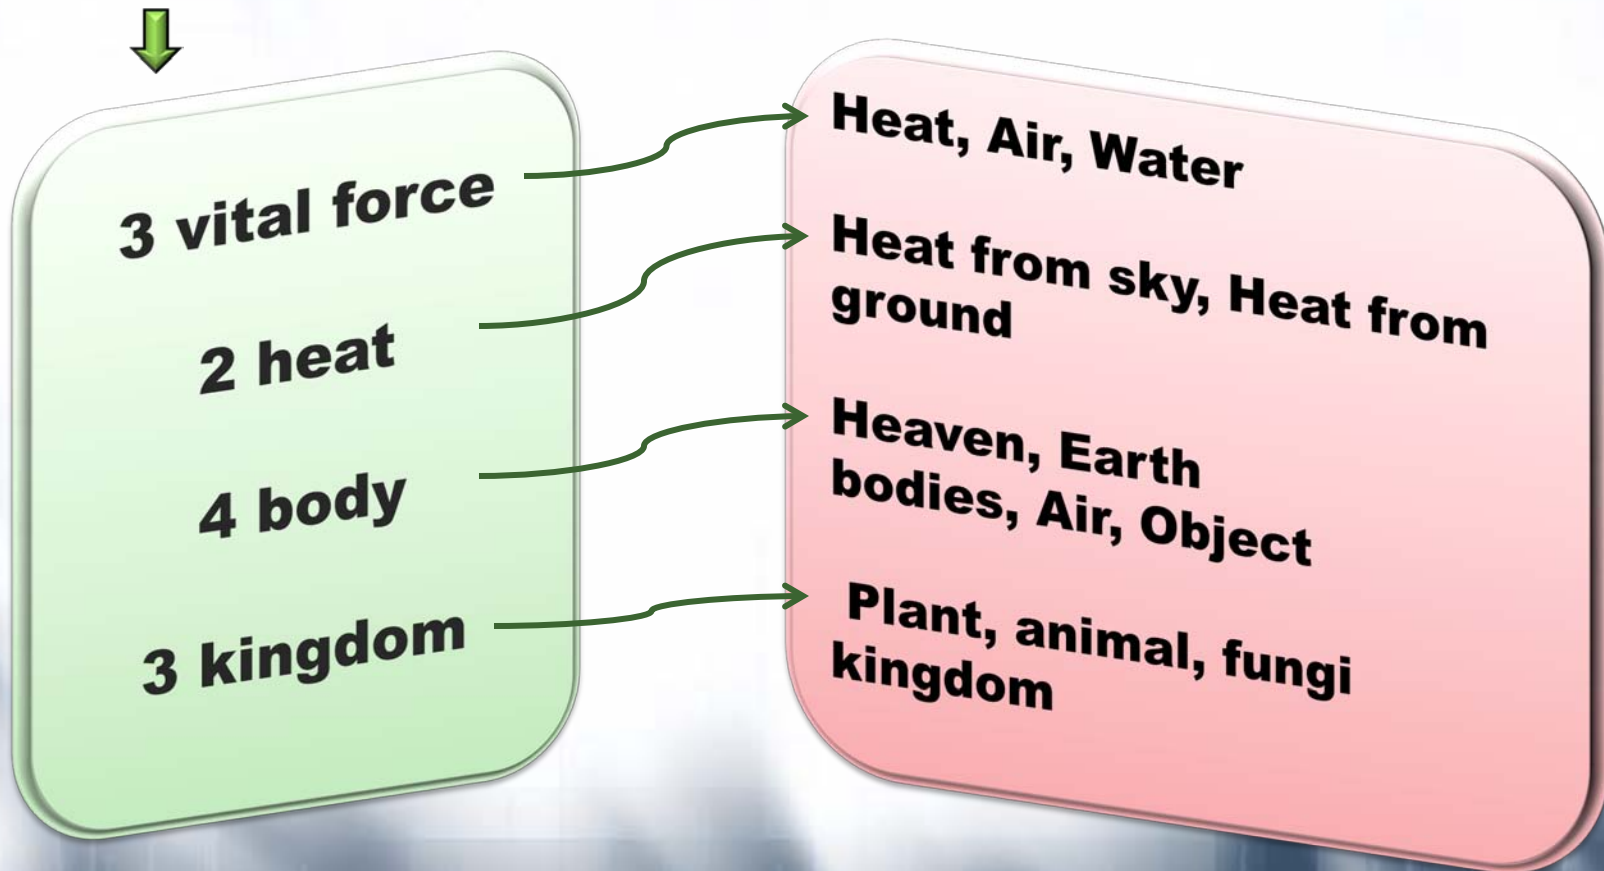

The Farmer's Heart

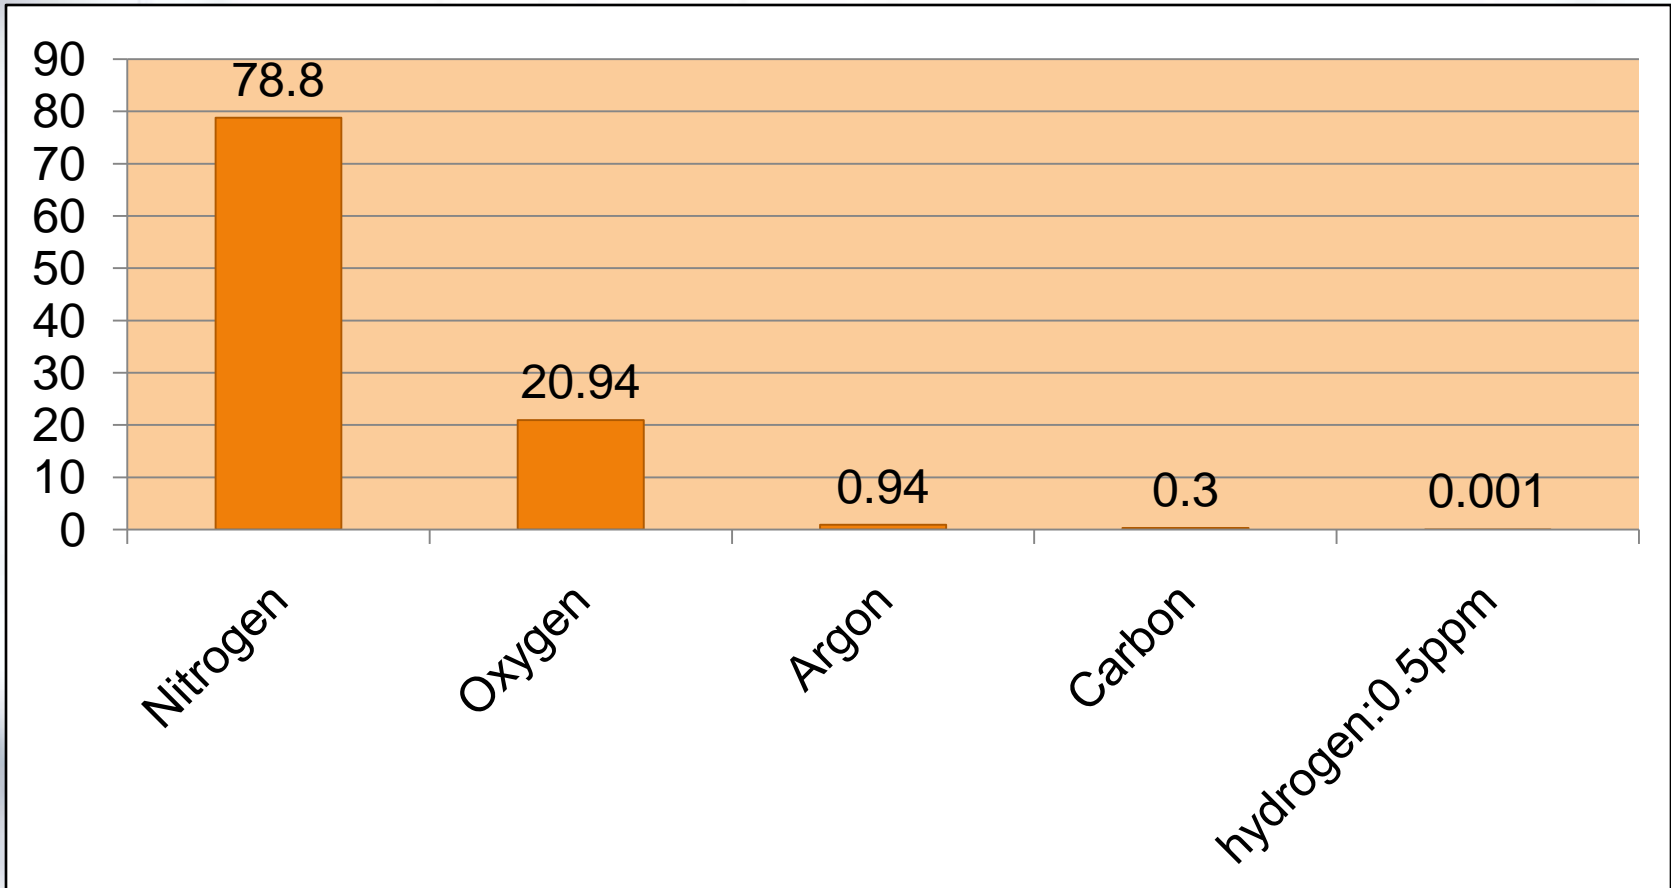

Cho Global Natural Farming(CGNF)

❖ Farming

- Application of living things
- Art of panting life on the body of Nature

Constituent of air

Natural water supply

Rain water

Surface water

Ground water

Microorganism & small animal is consist of 80-85% moisture such as a reservoir.

Natural fertilizer supply

Heaven fertilizer: Air

Surface fertilizer: Organic matter

Ground fertilizer: micronutrients

Microorganism & small animal is Consist of carbon(70kg), nitrogen(11kg)Per 0.1ha such as a fertilizer factory.

Once a full stomach,
Once an empty stomach

Application

1.No-Base Manure

2.Feed livestock Only One Time Every Day

Pen's length: Stereotype

Religion

**existing study
(Past)**

Unchangeable

Imitative

Against one's will

Passive

Faith

Application(Future)

Changeable

Creative

My own will

Positive & Active

Rice

(Carbon+Oxygen+Hydrogen) x Sunlight

Flesh

(Carbon+Oxygen+Hydrogen+Nitrogen)
xSunlight

The Eightfold Path

Self-centered

Right see

Right intention

Right speech

Right life

Consideration, love

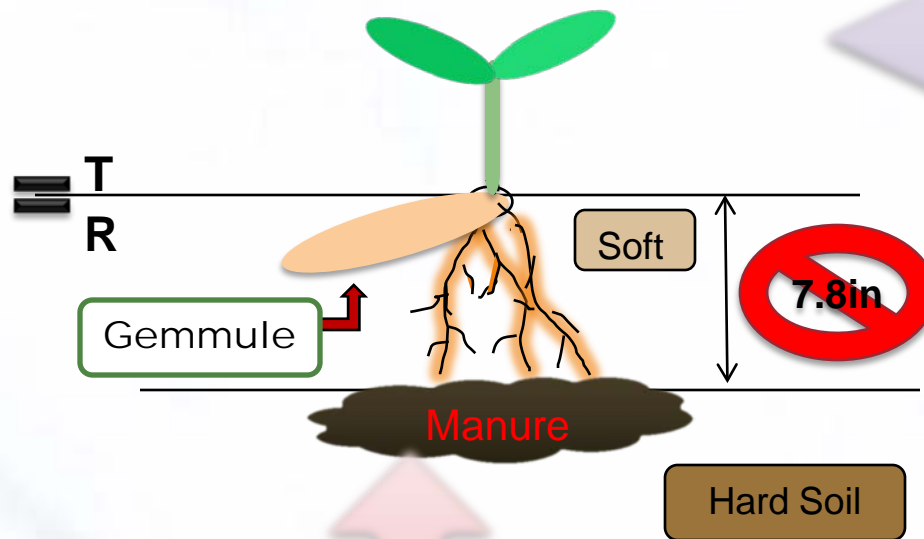

Right view

Right mindfulness

Right do

Right livelihood

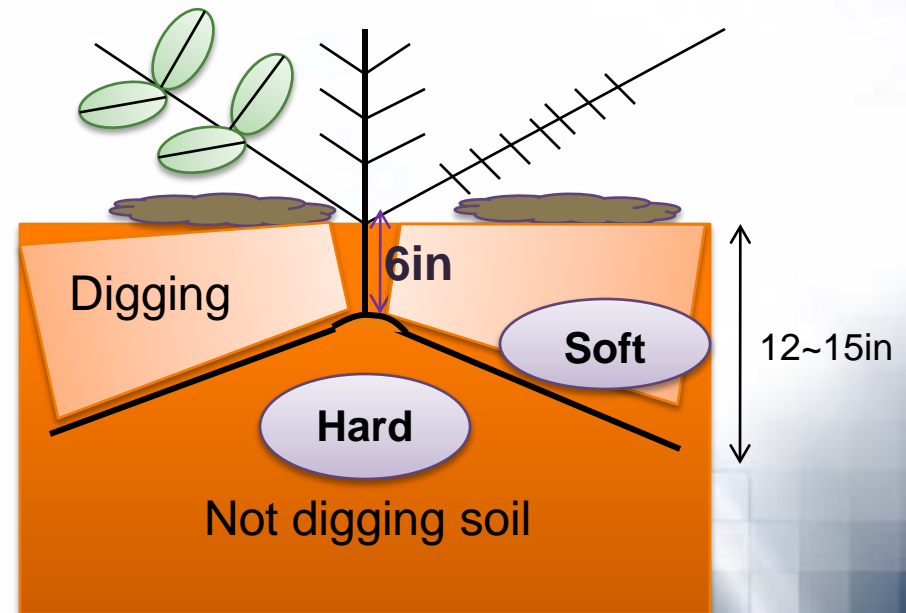

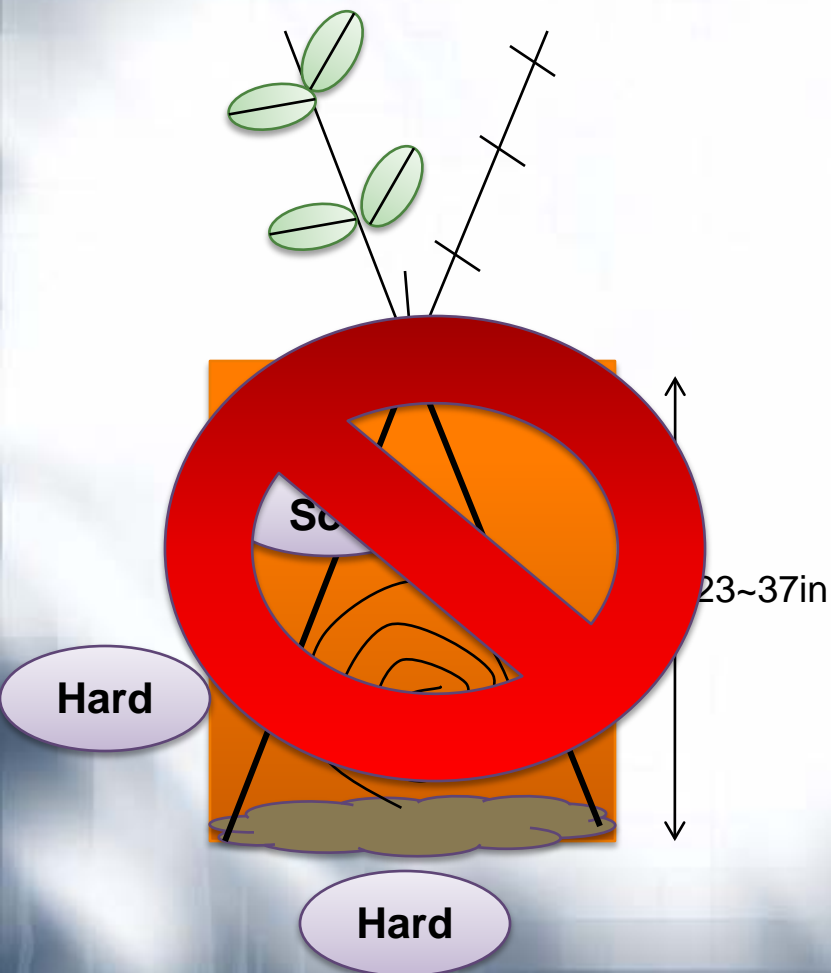

Growing Point

1. Excellent cell division
2. High metabolism
3. Accute adjusting to new circumstances
4. Vigorous pioneer ability

Base manure & Tillage

1. Laziness
2. Imbalanced diet
3. Dependence

**Stem & leaf : helitropism
(likes sun)**
Root : tropism (don't like sun)

Deep tillage & Heavy fertilizing

- ◆ Weakens primary root, lateral root and root hair
- ◆ Making artificial environment
- ◆ Mechanical, Chemical technique
- ◆ Interference
- ◆ Other's will
- ◆ Lack of competitiveness, high production cost
